

Welcome

Welcome to our school community.

I hope this website provides you with useful information about Eatons Hill State School. We are proud and confident of our developing school identity. Since establishment in 1998, our school has enjoyed wonderful support from the local community and steadily gained a reputation as a great place to educate children.

We offer a very comprehensive and progressive curriculum within very pleasant learning facilities. We focus heavily on our core business of teaching literacy, numeracy and thinking skills.

I hope that you will be very satisfied with our teaching and learning standards and that every day, your child/children enjoy coming to school.

The staff and I look forward to developing productive partnerships with you and your family.

Clyde Campbell AQIT(Sc), Dip Ed, BEd, MEdST Principal
